

Overview of Training

Join us for a day of classroom and field work. Attendees will be in the classroom to go over scarification, septic tanks and three different types of septic systems. Each topic will be followed by an outside demonstration.

IMPORTANT NOTE: Septic system installations will vary per training date. Maximize your learning potential and attend both days.

Dress for the elements!

Who Should Attend?

Industry professionals involved with septic systems including site evaluators, certified installers, certified inspectors, soil scientists, real estate professionals, local plumbing inspectors, code enforcement officers, town officials, planning board members, lake associations, land surveyors, engineers, contractors and the general public.

Recognition goes out to the following sponsors for making this training possible:

(excludes registration, breaks and lunch)

Instructors

Brent Lawson, State Plumbing Inspector, *State of Maine*, is a Local Plumbing Inspector, Master Plumber and Site Evaluator. Brent has been with the State of Maine since 2000. His duties are with the LPI and Municipalities in interpreting the rules, training and investigating Subsurface issues along with the permitting process. Prior to working for the State, Brent had his own plumbing business.

Kenneth Stratton, Natural Resources, Site and Soils Evaluator and Project Manager, *Main-Land Development Consultants, Inc.* In addition, to working with Main-Land, Ken is an Adjunct Faculty Instructor in Pedology at the University of Maine. Ken did private consulting for both site evaluations and wetland delineation for over 20 years. He worked as the State Soil Scientist, Director of Land Use Regulation Commission, Director of the Maine Forest Service and the State's Soil/Site Evaluator during his 19 years of service to the State of Maine.

Tim Wade, President of MASE, is currently serving his second term as President. He is a Licensed Site Evaluator as well as a Certified Septic System Installer and Inspector. In his spare time he is the Operations Manager for the Greater Augusta Utility District, working with drinking water, wastewater, and storm water. Tim also has Class IV Water Treatment and Distribution Licenses, a Class I-B Wastewater Treatment License, and a Class IV Collection System Certification.

Please continue to visit MRWA's website for the latest training updates, cancellation policy and class cancellations or delays.
